Summer Assignment – Class 3rd

Subject: Computer

Chapter: Advanced Paint

A. Answer the Following Questions

1. What is MS Paint?
2. Name the two options used to change the direction of a picture.
3. Which tool is used to make an image bigger or smaller?
4. Name any three options in the Zoom Group.
5. Name any three options in the Show/Hide Group.

B. Think and Answer

1. Riya wants to use the same flower in her drawing many times without drawing it again. Which option should she use?
2. Aman accidentally cuts a picture when he only wanted another copy of it. Which option should he have used instead?
3. The picture on your screen looks very small, but you do not want to change its actual size. Which feature of the View tab should you use?
4. Your teacher asks you to select the entire drawing at once. Which option will help you do this?
5. The ruler is not visible on the screen, but you want to measure the position of your drawing. Which option should you use?
6. Your picture is upside down. Which feature of Paint will help you correct it?
7. Suppose you are making a Birthday Card in MS Paint. Write any four tools or options from this chapter that you would use.
