Summer Assignment – Class 4th

Subject: Computer

Chapter: MSW Logo- Drawing Polygons and Circles

A. Think and Answer:

1. Riya wants the turtle to move to a new place without drawing a line. Which command should she use? Why?
2. After using the Pen Up command, Aman wants to draw again. Which command should he use?
3. Why is the REPEAT command better than writing the same commands again and again?
4. Your drawing is complete, but you do not want the turtle to be visible. Which command will you use?
5. While making a square, do you need to write the same two commands four times, or can you use another command? Name the command

B. Write the MSWLogo Commands

1. Draw two lines with an Angle.
2. Draw a square.
3. Draw a triangle.
4. Draw a square using REPEAT command
5. Write the command to draw a big circle
