Summer Assignment – Class 6th
Subject: Computer

Chapter: MS PowerPoint 2010-Advanced Features

A. Think and Answer

1. Your teacher wants all the slides in a presentation to have the same title style and background. Which PowerPoint feature would be most helpful? Why?
2. Riya wants to prepare a presentation using many family photographs. Which feature of PowerPoint would help her the most? Explain your answer.
3. Aman wants his presentation to look attractive without designing every slide from the beginning. Should he use a Template or a Theme? Give a reason.
4. Your friend has already made a few slides on "Save Water," and you want to use those slides in your own presentation. Which feature would help you?
5. While giving a presentation, you want to jump directly to another slide or open a website by clicking on a word or picture. Which feature would you use?
6. Why do you think using a Slide Master can save time while preparing a presentation?
7. Suppose you have to prepare a presentation on "My School." Write any four features from this chapter (Template, Theme, Photo Album, Slide Master, Hyperlink, and Reuse Slides) that you would use and explain why you would use each one.
